AKBAR MAULANA SETIAWAN

Business Analyst & Product Strategy | UI/UX Designer & Web Developer

Yogyakarta, Indonesia | 085624422356 | akbarmaulanasetiawan@gmail.com | LinkedIn | Portfolio

PROFILE

Information Systems student (GPA 3.74/4.00) with a growing focus on Business Analysis and Product Strategy, backed by hands-on experience as a UI/UX Designer and full-stack web developer across several academic projects. Selected as a Google Student Ambassador out of 81,000+ applicants nationwide and awarded 2nd Place at a national UI/UX competition. Comfortable turning user research and business analysis into practical outcomes — from wireframes and interactive prototypes through to working technical implementation.

EDUCATION

Bachelor of Computer Science (S.Kom.), Information Systems | Universitas Pembangunan Nasional "Veteran" Yogyakarta
August 2024 – July 2028 | GPA: 3.80 / 4.00

Bootcamp, Business Analyst & Product Strategy | Dibimbing.id, Yogyakarta, Indonesia
June 2026 – Present

- Trained in business analysis frameworks and data-driven product strategy formulation to support decision-making.
- Technical skills built: business process modeling, market & competitive analysis, requirement gathering, and product roadmap planning.
- Capstone project: developed a product strategy case study covering market analysis, a business model canvas, and a product launch roadmap.

ORGANIZATIONAL EXPERIENCE

Google Student Ambassador (GSA) | Google
April 2026 – July 2026

- Selected through a competitive nationwide process out of 81,000+ applicants to serve as the university's official campus representative, acting as the main link between Google's AI innovations and the campus community.
- Initiated and ran an interactive workshop on effective prompt engineering for 12 active participants, helping speed up AI adoption among students.

New Student Facilitator | Campus Life Orientation Committee (PKKMB)
August 2025 – November 2025

- Guided and mentored a group of 26 incoming students throughout PKKMB and the formal mentoring stage, supporting a smooth academic adjustment and introduction to campus culture.
- Led the group through the study-transition process with regular group coaching, achieving a 100% orientation completion rate within the mentored group.

ACADEMIC PROJECTS

TursMovie – Mini Cinema Ticketing Management System | End-to-End Developer (UI/UX Designer & Programmer)
February 2026 – April 2026

- Eliminated manual, paper-based record-keeping entirely by digitizing operations through an automated ticket reservation and real-time scheduling system.
- Designed the full experience from low-fidelity wireframes to high-fidelity interactive prototypes in Figma, focused on a smooth, intuitive user journey.
- Built a responsive front-end and back-end using PHP, HTML, CSS, and JavaScript on top of a properly normalized database structure.

Kampung Connect – Community Mobile App Solution | UI/UX Designer
September 2025 – October 2025

- Designed the user interface for a mobile app enabling residents to report incidents, access transparent information, and communicate directly within their neighborhood (RW).
- Led user research and information architecture work to reduce cognitive load for residents submitting emergency reports on the platform, using Figma.

COMPETITIONS & ACHIEVEMENTS

2nd Place, National Level – UI/UX Competition & Innovative Technology Capstone Exhibition | TEnTI Specta Wave, Universitas Muhammadiyah Yogyakarta
January 2026

- Placed 2nd out of dozens of teams nationwide for designing an innovative, solution-driven digital user interface.
- Led the development of an interactive prototype grounded in in-depth user research alongside team Sonic, earning high marks from a panel of HR and industry judges on business viability and design quality.
